

# Call for Papers

## Workshop on

# The Social Dimension of Organizations

April 27-28, 2012 Central European University, Budapest

This workshop aims to bring together a small group of researchers interested in the social dimension of organizations. Both theoretical contributions as well as empirical papers using experimental or field data are welcome. The goal is to disseminate recent findings and foster interaction among economists of diverse interests (theory and empirics). We also welcome submissions with an interdisciplinary approach that draw insights from related disciplines such as psychology and management. The workshop will comprise invited and contributed papers.

Topics of interest include but are not restricted to research on:

- Peer effects in the workplace or in other environments
- Corporate social responsibility
- The analysis of principal-agent relationships with behavioral traits (e.g. altruism, reciprocity, trust)
- The effects of non-pecuniary compensation

We are delighted to have keynote speeches delivered by:

- Jim Andreoni (UCSD)
- Iwan Barankay (Wharton School, University of Pennsylvania)
- Roberto Weber (University of Zurich)

The workshop is funded by UniCredit & Universities Foundation, UniCredit Bank, the Royal Economic Society, and the Central European University. There will be no charge for participating and accommodation will be provided. A call for two “Best Papers Award” offered by UniCredit & Universities Foundation is attached.
